● What is Daisy Freedom?

Freedom is a new tariff built for business. **Exclusive to Daisy** it offers unlimited* minutes and texts, plus 1GB of data allowance and is available on Vodafone.

It's designed to give you even more freedom to use your mobile devices for the calls you need to make - offering a 'pick and mix' style approach to building the package that best suits your requirements.

Included in the basic tariff is:

- Calls to Freephone and non-geographic numbers
- Voicemail call return
- MMS

Full details on page 02.

In addition there are a number of bolt-ons that you can select to suit your individual requirements enabling you to make significant savings should your needs cover such things as:

- International use
- Roaming
- High data requirements

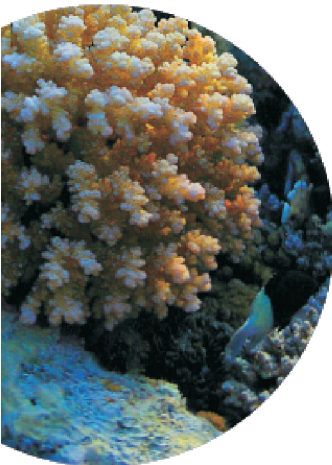

All this means that you no longer have to feel any restriction when using your mobile and working remotely.

And to make this great tariff even more tempting, we are launching all roaming bolt-ons at **50% discount** for customers who sign up by 30th December 2013**.

● **Bespoke**
mobile solutions

improving your
mobile experience ●

07821 607729

● Tariffs as individual as your business

you will only pay for the add-ons you need ●

● Giving you the Freedom

We have produced a selection of bolt-ons to build you a solution that best meets your requirements. Our bolt on details are available on page 03.

Daisy Freedom includes as standard:

- National calls
- On network calls
- Cross network calls
- Voicemail calls
- SMS
- **NEW** – Non-geographical calls (0845, 0844 etc.)
- **NEW** – Freephone calls (0800,0300)
- **NEW** – Call returns from 121
- **NEW** – MMS
- 1GB inclusive UK data allowance

Add up to three bolt-ons – one data, one international and one roaming to meet the needs of the individual user. So for example, someone who only uses their phone to make calls rather than having data requirements and is a frequent traveller abroad might want to add one of the international bolt ons which will leave them safe in the knowledge that there will be no nasty surprises on their return.

Fair usage limits apply:

- 15,000 minutes between national, on network, cross network, in group & voicemail
- 15,000 SMS
- 500 minutes for non-geographical & Freephone calls
- 500 minutes for call returns
- 500 MMS
- Standard Vodafone out of bundle rates apply for all other event types
- Artificially inflated traffic is excluded from ALL bundle allowances
